

Studieplan 2008/2009

Geographic Information Systems

Duration

1 year

60 ECTS credits

Further education programme at undergraduate level.

Expected learning outcomes

By the end of the course, the students will have a broad theoretical and practical ability in collecting, administering and presenting graphic information.

They will have co-operated in projects in the use of EDP equipment and GIS programme tools and will be competent to manage the economic and organisational consequences of the use of geographical data in an organisation and contribute geomatic competence in multi-professional activities.

Admission Criteria

Applicants must have completed at least one year of higher education to qualify for admission.

Internationalization

The students can do the main project at a partner institution abroad (the last part of the spring semester).
